IF THERE IS A RED X IN THIS BOX THEN YOUR SUB IS IN DANGER OF LAPSING. If you are a player you get 1 issue more than your sub and then I call for standbys. If you are not a player then you do not get any issues past your sub amount.

Standby list: Hickey, Ashley, Cusack, Conlon, Walker, Acheson, Kane, Jewett, Anderson, Lowes, Gauron, Jung, Panches, Sampson, Jensen, Heintzman, Torres, Head, Paulson, Winslow, Watson, Bennett, Rauterberg, Keller.

2nd week Standby list. Hickey, Cusack, Jung, Walker.

Pl's are assigned by how few games you are currently playing in SK. Once assigned to a position you will always be called for that position unless you request to be taken off

IMPORTANT NOTE: IF YOU ARE A PLAYER IN THIS ZINE THEN YOU CAN EXPECT TO RECIEVE EITHER:

(A) Your Game Report (B) Information about why you do not have a game report

2 players did not receive any game reports when they should have and this caused some problems. If for any reason you do not see anything about your game when you get SK then look under "Games in this zine" on P1 or for a personal note. If there is nothing at all then contact me and I'll mail another copy.

Is this really a 10 page Sleepless Knights ????. ...And not even a double issue! Oh well, don't expect to get this every issue. Just to give you an idea of what's inside. Judy Winsome calls me a sexist on Page 5, Sick jokes are on Page 2, IPR on page 3, a new column by Bob Acheson on page 10, Barry Hickey explains house rule 27.36a on page 7 and the Trivia quiz is on page 2.

Talking of Trivia quizzes....Not only is Judy Winsome raking me over the coals but now Kathy Byrne has filed on official protest with her Ombudsman (Steve Arnawoodian) because I would not accept one of he answers in last issues trivia quiz. Asking for various WWII events to be put in order did not mean I would accept alphabetically Kathy. Oh well, I'll not take this one lieing down. I have already filed a protest of the choice of ombudsman. I can't accept an ombusman who has donated 123 supply centers to Kathy in the last 2 years. My suggestion for an Ombudsmen would be Steve Hutton or Ron Brown. 2 fine Canadian GM's.

Baby wise, Julie has 7 weeks to go. Of course she may be early which would really wreck up the next deadline.

Influential Player Rankings.

From the desk of Dan Stafford, 215-D Delhi Ave, Columbus, OH, 43202, USA we get the latest (3/7/83) rankings for the IPR. This is a Calhammer-type rating except that it tabulates only the last 5 years, in this case from EVERYTHING #42-#55 (1977-82). Letter Excerpts:

(Clarice Marie Lowes, age 2 months) Dear Mr Carter, thank you very much for the sample issue #20 that you sent. It was a bit confusing to me - so many things I don't understand yet. But I like the pictures. The STAR WARS shots had to be explained to me but Dad says he'll take me to see the fifth one - I should be old enough by then. And those girls aren't wearing very much clothing. Everytime I have that few on I get cold. Am I supposed to look like that? Daddy mumbled something about needing a big club if I do....Anyways, I don't think I should subscribe yet, maybe in a couple of years after I learn to read. Good luck with your new baby-to-be.

((I'm sorry to hear that you don't want to sub just yet Clarice. Don't let the fact that you can't read stop you, Steve Hutton publishes a zine without being able to write))

(Bob Acheson) While I won't bet on my leafs yet, at least until they KO Minnesota and Chicago, I do believe that the Byrnes Islanders would be very lucky to get by Washington.

((If I had any compassion I wouldn't print these old letters written before the playoffs but a real letter from Bob Acheson is hard to pass up.))

(Rob Rochester Winslow) The SEC is indeed a very good basketball conference, Georgia proved that. I never said it wasn't good. About NCAA Football though, it seems that Penn State won the National title last year and this year seems to remember that Pennsylvania is somewhere North of the Mason-Dixon line.

In the Northeast we do like to give our student-athletes an education, is that wrong? Bill Bradley, for instance, had a fine career with the Knicks and is now a US congressman (Although I'm not saying Congressmen have any brains, take Ted Kennedy for example) ((No thanks, you can keep him))

As far as toxic wastes go, how come every train loaded with some kind of poisonous gas seems to derail in Louisiana? Perhaps all the Chlorine gas drifting around down there has screwed up a few too many minds. This could explain why some folks actually brag about consuming Budweiser.

((If you guys would argue about NHL hockey maybe I could get in on this.))

(Ben Schilling) Any one who believes that NCAA athletics are amateur sports expects ALL dip players to keep ALL their promises.

(Doug Karnes) You might as well put me on your list of new daddys. Elsie (My wife) gave birth to our first child, a son, which we named James Christopher Ryan Karnes, on Feb 23rd at 1.20 am.

((Congratulations Doug, if any more dippy-types have kids we'll have to call in the Atlanta disease control center to find out what is causing it. Maybe the thing is a virus transmitted by dippy zines?

(Jeff Punches) The floods and high seas we had in California have subsided and spring is in full bloom - it's SOF out and beautiful sun - how's yours (ha,ha) ?

I've been busy at work lately but still have some time for fun. I've been appointed the Traffic Safety Commissioner for the city of Carlsbad - no pay, but it does further my political career.

((We share the same sun Jeff. Weather-wise this winter was the mildest I can remember since I settled here in 1964. Hardly any snow, moderate temperatures and little ground frost. My job is construction-related and due to the moderate winter the Spring construction season is 4 weeks ahead of 1982. Spring is always our busiest time and we still have 1/3 of the staff working on winter research projects. I deleted your joke cos city officials in Carlsbad should not go around telling ethnic jokes...got any more?))

(Mark Keller) Yes, my zine is done on a VIC 20. The VIC has 23 lines of 22 characters. The text editor I use is one that I wrote myself. It provides me with 5 logical lines of 82 characters each on the screen at once together with a status line and a command line. The VIC is now selling for \$89.00 in the US.

One nice thing about Commodore is that if you buy the VIC with a printer & disc drive you can use them when you move up to the "64". I may be moving up very soon. The "64" is now selling for \$399.00 US. I've also

Continued next page.....I hope

Sleepless Knights #22

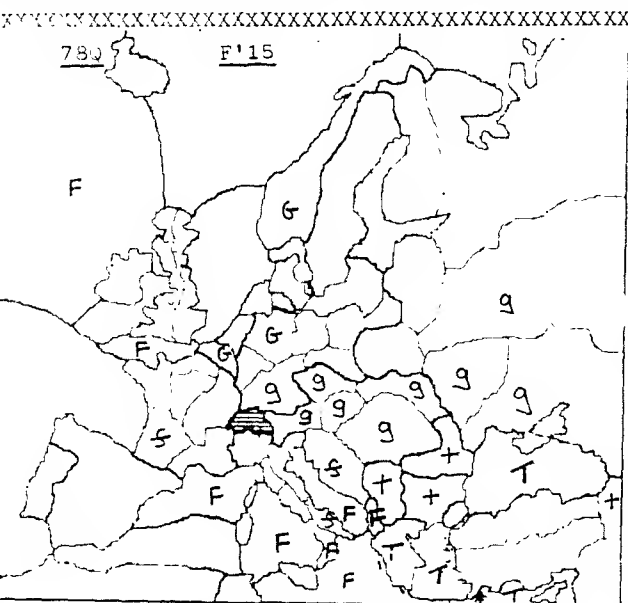

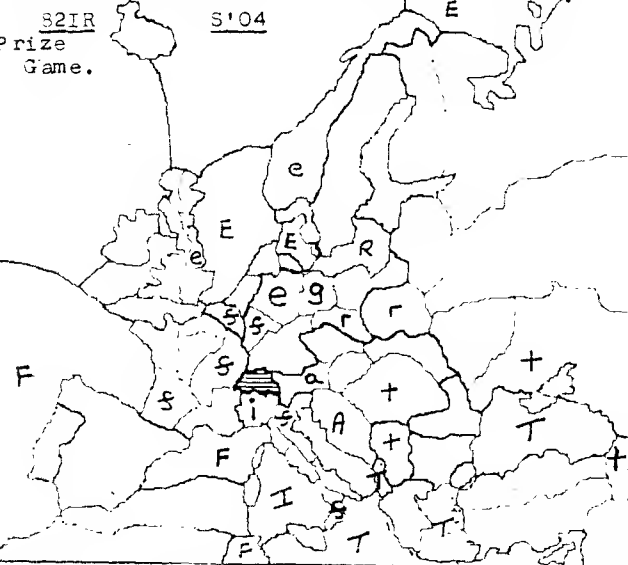

heard that Commodore is starting to offer a trade-in offer with the "64". You buy a "64" and send them an old computer/video game and they discount \$100. Disc drives are now selling here for less than \$300.00 US. If you buy one be sure to get the 1541.

I don't like or use a Commodore printer, I have a MX-80. It has much more flexibility and better quality printing. If you get an Epson printer let me know and I'll fill you in on what I know about interfacing it.

To give you an idea of how much having a word processor means to me, I would not have started publishing without one.

((Oh, shit! I forget to change elements!! Thankee Markie for an interezting letter. I've had little formal education on computers but it's a subject I'm very interested in. I wasn't aware that the VIC 20 could do so much until I saw what a nice job it did with HAI JAKAI. My basic requirement for a computer would be word-processing and other things would be secondary. I've been saving up these last few paydays like crazy to beat the MAY 20th deadline (Julie quits work for good and I'm in trouble) and I'm gonna be short for what I really need but I may have enough for a VIC 20/disc and printer if the salesbeing feels real sorry for me. Prices in Toronto are: Vic 20 + Accessories=\$400 CDN, "64"=\$800 CDN, "64" + disc drive + Desk = \$1300 CDN, "64" + Monitor + Desk = \$1200 CDN. I intend to check out the duty charges for computers and I may pick something up when I'm at ORIGINS.....you know what I mean,??))

No change in Deadline, F'05 is still due MAY 12th. For the last adjudication change the map by removing Turkish a smy. Underline Turkish a ank-arm. Sorry about that, but at least my erratta is not as long as the original adjudication a la SPI's ARMADDA.

Let us also not forget that Bob Acheson has a COA on Page 1. Bob, you don't know how much I hate it when you move and I have to notify every game in this zine.

 1983 Runestone (a.k.a. Leeder) Zine and GM Poll:

SIXTH ANNUAL NORTH AMERICAN GAMESMASTER POLL.

You may rate any GM in whose postal game(s) you were a player during the period beginning April 1, 1982 and whom you played under for long enough to gain an objective assessment of his/her competence as a GM. Rate each GM on a scale of 0 to 10 (0 being the lowest possible rating, 10 the highest). No fractions. GM's may not rate themselves. Others may not rate GM's in whose games they were not active players during the poll period. Violations of these rules will result in invalidation of the entire ballot.

Rate each GM by name, not by zine. Votes which do not use the Gm's name will not be tabulated. To help in tabulation, please list the the GM's in alphabetical order by surname.

SEVENTH ANNUAL NORTH AMERICAN ZINE POLL.

You may rate any publication substantially devoted to Diplomacy (Including Genzines, house zines of Organizations etc) which has published more than 2 issues since April 1, 1982. Rate the series, not individual issues. Rate only zines of which you have seen enough issues to form an objective assessment of the quality of the Publication; do not base votes on hobby feuds, agreement or disagreement with the editor's opinions etc. Rate each zine on a scale of 0 to 10 (0 being the lowest, 10 the highest). No Fractions. Specify subzines and rate them separately from the parent zine. Subzines will be listed separately in an independant list.

Publishers may not rate their own zines. Violation will result in invalidation of the entire ballot. Please list the zines in alphabetical order to make tabulation of the results easier.

BALLOT: Sign your ballot and indicate 1 way in which you participate in the hobby (To establish eligibility) All votes will be kept confidential. Send your ballots to RANDOLPH SMYTH, RUNESTONE POLL, 212 ABERDEEN ST S.E. MEDICINE HAT, ALBERTA, CANADA, T1A 0R1. Deadline is July 4th, 1983
 Please rate only North American GM's and Zines, although any readers outside North America may participate.

.....I'm Sexist??!!!!.....According to Judy Winsome of WINSOME/LOHOME I am! She is currently conducting a poll for the most "sexist person in the hobby" (That's sexist not sexiast. Julie Glass would win the sexiast hands down). The name of the award to be presented to the Sexist person in the hobby is the CARTER AWARD.

Write to Judy at 1993 Plymouth Dr, #11, Mountain View, CA, 94043, USA and nominate someone (Nominate yourself?). Deadline Mothers Day: Sunday May 8th.

....and to think that this all started because Dave Weatherhead refused to draw a nude male for my front page.....Sheeesh.

((The person who gave this to me tells me that it is a fairly old joke, but It's the first time that I can remember seeing it. So here goes HOW TO KILL A SOUTH DAKOTA EEL.))

Little Johnny was 12 years old and, like other boys his age, rather curious. He had been hearing quite a bit about "courting" from the older boys and he wondered what it was and how it was done. One day he took his questions to his mother who became rather frustrated. Instead of explaining things to Johnny, she told him to hide behind the curtains one night and watch his older sister and her boyfriend. This he did. The following morning he described everything to his mom. "Sis and her boyfriend sat and talked for awhile, then he turned off most of the lights." "Then he started kissing and hugging her. I figured Sis must be getting sick, because she started looking funny. He must have thought so to, because he put his hand inside her blouse to feel her heartbeat just like the doctor would do. Except I guess he's not as smart as the doctor because he seemed to have trouble finding her heart. I guess he must have been getting sick too, because pretty soon both of them started panting and getting out of breath. His other hand must have been cold because he put it under her skirt. About this time Sis got worse and started to moan and sigh and squirm around. They slid down to the end of the couch. This is when the fever started. I know it was the fever because Sis told him that she was really hot. Then finally I found out what was making them so sick. A great big eel had gotten inside his pants somehow. It just jumped out of his pants and stood there, about 10" high. Honest! Anyway, he grabbed it with one hand to keep it from getting away. And when Sis saw it she got really scared...her eyes got big and her mouth fell open. She started calling out to God and stuff like that. She said it was the biggest one she had ever seen (I should tell her about the ones down at the lake). Anyway, Sis got brave and tried to kill the eel by biting its head off. Then all of a sudden, she made a noise and let go of the eel...I guess it bit her back. Then Sis grabbed it with both hands this time while her boyfriend took a muzzel out of his pocket and slipped it over the eel's head to keep it from biting again. Then Sis lay back and spread her legs, so she could get a scissor lock on it, and her boyfriend helped by laying on top of the eel. The eel put up one hell of a fight. Sis started groaning again and then she squealed and her boyfriend almost upset the couch. I guess they were trying to kill the eel by squashing it between them. After awhile they both quit moving and gave a great sigh. Her boyfriend got up, and sure enough, they had killed the eel. I know it was dead because it just hung there, all limp, and some of its insides were hanging out. Sis and her boyfriend were a little tired from the battle, but they went back to courting anyways. He started hugging and kissing her again. But by golly...that old eel wasn't dead. It jumped straight up and started to fight again. I guess eels are like cats...they must have nine lives or something. This time Sis jumped up and tried to kill the eel by sitting on it. After a 35 min. struggle, they finally killed the eel. I know it was dead for sure this time, because I saw Sis's boyfriend peel off the skin and flush it down the toilet.

Why? Why write a column for Sleepless Knights? Well, basically there were two main reasons:

- 1 FOURTEEN DAYS.

I now present the Northern Rights problems and possible solutions. Basically this can be broken down into three separate areas.

(2) Inuit: Kezani themselves as "the People". I believe that we used to call them eskimo's. Basically these people want the same cultural rights as the Brotherhood, but do not demand the same land track. About 1/2 of the Territories will do for these guys.

The solution to both parties would be to: #1 Stop funding the committees because there shouldn't be any claims at all! (Ever hear of Mongolian or Siberian land claims?) If the Native people want land then buy it. Instead of spending all those welfare cheques on booze they should go on the wagon, save their Shekels and buy the land. Forget this give! give! give! #2 Scrap all the "Native" job creation programs. Now there is considerable pressure brought upon Northern mines, drilling rigs etc to hire a percentage of natives. Unintentionally the government programs make it very attractive to the employers in subsidies and relaxation of various control factors. But somewhere along the line we pay for this. As well, bringing people in order to fill "quotas" has an effect on production and morale. People should be hired to fill requirements based on their own qualifications and not simply to fill quota levels set by government. #3 Implement more re-schooling and training programs at the same time as pruning the welfare rolls (This should be done on a national basis). The emphasis of the re-schooling should be on Northern Requirements. Instead of continual handouts, which does a lot for their self-respect, teach these people to help themselves.

That leaves us with the final minority. I refer to those people as the OTHERS. The OTHERS include anyone who is not an Indian or an Inuit. Messrs, that's me. Now what rights could we possibly want?

- a/ No taxation on the Northern living allowance (Greedy? who Me?).
b/ All government freebies that are given to our Inuit and Indian friends, i.e: land claims, cash, welfare etc.
c/ Longer bar hours. We want equality with those Frenchmen from Montreal.

Obviously none of the above will take place so at least give us more time to drown our sorrows in the traditional northern way.

The above opinions are those of Robert Ackerson and do not represent the opinions of this zine etc....grovel.
..grovel..grovel.Any counter-arguments or comments will be printed next issue if you send me any.

Basically Bob's politics are the same as mine although my main beef is not Native Rights but Capital Punishment. Still, I agree....grovel...grovel...%100 that a job should go to the person most qualified; black, white, eskimo, male, female, gay....whatever. Currently, the government of Ontario (my employer) has a policy to fill positions with females, even when a male counterpart has better credentials/more seniority. Despite some of the jokes that go into SK I am a strong believer in treating all people the same and regarding those (of any minority) that have proven they deserve it...grovel...grovel...grovel...
